

I have had several requests to compile a list of the current career videos featured on [Destination Occupation](#) and here it is! The list is broken into three sections:

- Section 1 features individuals who are a part of a company series (listed alphabetically).
- Section 2 lists the career videos from Rachel's Solo Video ventures.
- Section 3 lists the career videos featured on Destination Occupation's Youtube channel.

Each person featured explains a variety of things from important skills that are needed to do their job, to what education or training is necessary, to why that job is a good fit for them. Some videos are very focused on what that person does in their job (sort of a day in the life), others tell more of a story. Ideally, after watching several (or all) of our videos, viewers will be in a position to make a better informed career choice.

There are links provided to associated pages on Destination Occupation and for videos only on Youtube, those links are provided as well.

## SECTION 1:

### [General Dynamics/Bath Iron Works in Bath](#)

*Welder* - Tim - Learn about the different types of welding projects Tim works on at Bath Iron Works. He describes the evolving skill set that is required, the need for continuous learning, and why working at BIW is a great place for him.

*General Laborer* - Brianna - Learn about the different types of projects Brianna works on as a General Laborer at Bath Iron Works. She describes her motivation, the variety of skills she has acquired, why she likes learning, and why applying to work at BIW was a great choice for her.

*Electrician* - Steve - Learn about the different responsibilities Steve has as an electrician at Bath Iron Works, how BIW offers ongoing training and why this is an important career choice for him.

### [Jotul, North America in Gorham](#)

*Welder, Press brake Operator* - Alyssa - Follow Alyssa's path from a frustrated high school student whose skills as a welder led her on the path to become a mechanical engineer.

*Computer Aided Design and Engineering Manager* - Ames - Find out how Ames survives a downturn in the economy by finding a solid company who looks to re-train motivated people.

*Forklift Operator, Shipping & Receiving* - Kelly - See how Kelly goes from having no idea what she wanted to do, to finding a career path that she never thought of.

### [Hancock Lumber found in 13 Maine towns](#)

*CDL Driver* - Corey - Hear how Corey finds his niche as a driver at Hancock Lumber and why he loves it and his schedule.

*Counter Pro/Customer Service* - Sarah - Learn about Sarah's story of finding a work environment that cares about what is important to her.

*Vice-President of Sales, Sawmill Division* - Matt - Learn about Matt's career path from college graduate to the promise of becoming vice-president, but you don't just get there without piling some boards.

*Project-Pro, Exterior House Design* - Kara - Hear about how Kara helps customers and the skills that make being a Project-Pro a great fit for her.

### [Maine Medical Center, Summer Teen Employment Program](#)

This program is located in Portland and is designed for individuals ages 15-25 who have a diagnosed disability and a desire to work!

*IT Support* - Jake - Learn about why following directions is important for this job.

*Linen Services* - Marina - Hear about why this job makes her feel successful.

*Food Service* - Matt - Talks about how being organized is critical for this job.

### [SIGCO, a glass and metal manufacturer in Westbrook](#)

*Human Resources Manager* - Cindy - Will explain what SIGCO does, the kind of employees they are looking for, and the great benefits they offer.

*Production Facilitator* - Dustin - Loves his job, is a “jack of all trades” and keeps the place running smoothly moving from department to department throughout the day.

*Tempering Lead* - Chris - Tempers the glass, tests for safety and is proud of his accomplishments at SIGCO.

*Cutters* - Christian and Rob - Cut, hustle, work as a team and think SIGCO is awesome.

*Boxer* - Derke - Builds customized boxes for orders that can weigh thousands of pounds and has found a career he loves.

*Polisher* - Chris - Polishes glass smooth and feels important to be a part of SIGCO

## SECTION 2:

### [Rachel's Solo Video Ventures](#)

On this page you can watch and explore career videos that have been produced, shot and edited by me, Rachel Knight, creator of Destination Occupation. I am a self-taught videographer, which means that my skills, like these solo venture videos, are a work in progress! It can be a little scary to put your work “out there” especially if it has some flaws, but ultimately I am more motivated to create content for you to have more career exploration videos to watch and hopefully see yourself in some of the people featured.

*Project Manager* - Elizabeth - Freeport Metrics, Portland. Elizabeth explains what her responsibilities are, how she gained the necessary skills to do this job and why this is a good fit for her.

*Hair Stylist* - Bret - Bang Cut & Color, Portland. Bret describes the important skills and work habits that are needed to be successful in this industry. Find out why he likes

being a hair stylist, what he looks for in a new employee and what he likes about living in Portland, Maine.

*Marketing and Events Director* - Trevor - Dispatch Magazine. Trevor describes some of the responsibilities he has for this trendy magazine, what a “typical” day looks like, the fun things he does and why it is a great match for his personality.

*Professional Organizer* - Dawna - Organzie ME! Portland. Dawna talks about what she does, why she does it and how she decided to become a professional organizer.

## SECTION 3:

### [NEW VIDEO SERIES ON YOUTUBE!](#)

“Under 3 in Under 30”

This series had been on my mind to produce for some time. Finally I got the chance to act on this idea when I got an intern from [Baxter Academy](#) and felt the time was right to try it out. The mission of these videos is to illustrate the intrinsic value of ALL WORK. I believe that every job is important to both the individual who performs that job and to the community that person works in.

The videos are meant to have a more “real” feel to them. They are “under 3” minutes in length and get edited in “under 30” minutes. We film and edit right on an iPhone (edit using iMovie app), then upload to Destination Occupation’s Youtube and social media accounts. These videos are really fun to make!

[Pedi-Cab - Sam, Portland.](#) This was our proof of concept video. In this you see a bit of what Sam does and hear him talk about why working as a “bike” cabbie (Pedi-Cab) makes sense for him.

[Night time Supervisor - Daniel - Flatbread Pizza, Portland.](#) Daniel talks about why location matters, why what he does is important and why his job is important to him. You get to see a cool wood fired oven and some pizza making in action, too.

[Deckhand - Ali - Casco Bay Lines, Portland.](#) Ali explains a few of his tasks as a deckhand, how safety is important, and that he has future plans to work in IT.

[Captain/Deckhand - Jeff - Casco Bay Lines, Portland.](#) Jeff talks about how his job has many layers to it and how working there is like having a family.

[Bartender - Nikole - Portland Pie Company, Portland.](#) Nikole explains the soft skills that are important to serving the public in her job as a bartender. (This was Chloe's first turn at interviewing, filming and editing start to finish!)

[Field Engineer - Tyler - Winxnet, Portland.](#) Tyler describes what he does at Winxnet, why what he does is important to his clients and why he likes his job. (Chloe goes mostly solo on this one! I filmed a little b-roll for it.)
