

# Jacob D.

Augusta, ME 04330

## EXPERIENCE

### **Hannaford, Gardiner — Seafood Manager**

Dec 2015 - Jul 2016

Starting as a closer in the meat department, I quickly worked my way up to an opener and eventually cross trained into the seafood department.

My jobs were to open and close both departments and order stock, like fish, lobster, crab etc.. The entire department was my responsibility. I broke down the machines, maintained, and cleaned the equipment.

### **Wendys, Augusta — Grill/Crew Member**

April 2017 - August 2017

Basic Crew member. I would run grill and basic crew jobs.

### **McDonalds, Augusta — Grill/Crew Member**

OCT 2018 - DEC 2018

I worked at a grill and sandwich bar.

## EDUCATION

### **Cony Votech -Augusta -Computer Tech/IT**

2008 - 2009

### **Adult ED - Hiset**

2018 - (just need to complete the math testing component)

### **Manufacturers Association of Maine and Destination Occupation Manufacturing Technology Basic - Certificate**

*Taught via Northeast Technical Institute*

4/27/2020 - 5/28/2020

Topics covered: Workplace Skills and Communication, Introduction to Lean Manufacturing, Safety Practices and Regulations, PPE, Lockout/Tagout, Hazardous Communication and Precision Measurement

## SKILLS

Major skills include electronic understanding in computer

tech/components. I

fix/refurbish new and old PCs

also small electronics -

anything with motherboards/  
transistors/capacitors.

I work with electronics every  
day - building computers from  
scratch and repairing

computers for fun and profit. I  
can solder, and run simple and  
advanced troubleshooting  
diagnostics.

I do a lot of testing on  
performance of PC hardware  
by running benchmarks. I

check for bad components on  
PCBs like capacitors,

transistors and bad, or severed  
connections.

I am a quick learner, versatile  
and easy to get along with. I am

passionate about electronics

and will work diligently and

patiently on all duties and  
tasks.

My electronic skills have been  
acquired through Cony Votech

and by my burning passion to

work with computers. There's

always room for improvement

and I'm fully focused on
